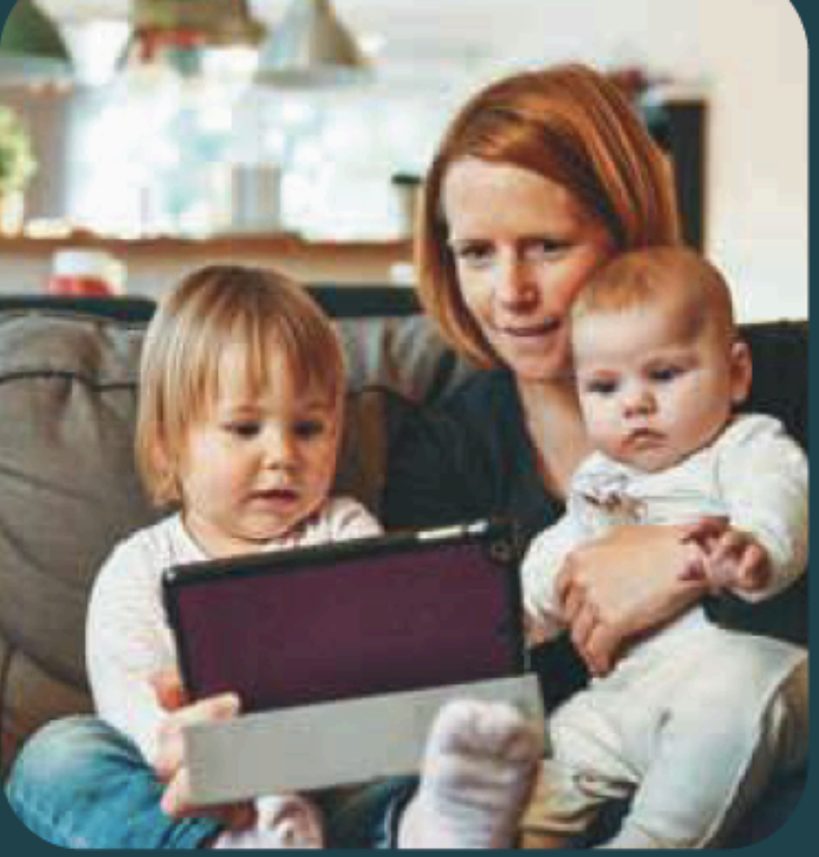
pert™
friendlier, smarter home automation

Make your home smarter



How automation helps you?

Almost every electrical device and system in your home can be automated, managed via a smart device autonomous control has never been so easy. This provides you with improved convenience, comfort, and energy efficiency. Think of a Pert home automation system as a unseen house-keeper, who's always there to give you a helping hand.

Control

Total control over a home has never been easier. With pert you can manage every electrical appliance and feature of your home through your iOS and Android devices.

Security & Safety

A home that's not secure is simply a house. It's natural to protect what you hold dear, that's why pert has developed a wide sensor range which enables you to turn your home into a castle.

Energy Saving

With efficient automated utility management, every home regardless of size or age can see a dramatic reduction in energy consumption.

Mobile monitoring

Check up on your house while you're away, by simply using your Android or iOS device to watch live CCTV feeds, and monitor which systems and appliances are active.

Pert Products

Making your life easier

Convenient

Control and monitor your home conveniently, using your smartphone, from anywhere. Monitor your power consumption & start saving.

Affordable

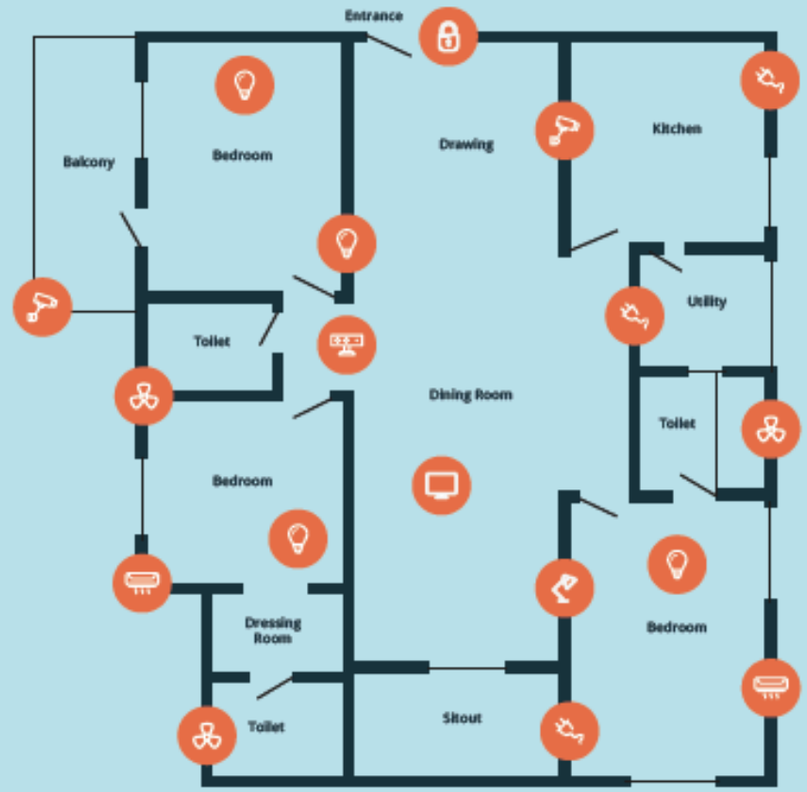
A smart home is now easy on your pocket. Equip your home with Pert devices without breaking the bank.

Easy Installation

Pert devices are easy to set up and use. The installation process is hassle free and they connect to your existing Wi-Fi network.

Retrofit

Pert devices work in sync with your existing electrical connections and appliances. No additional wiring required. They fit inside your existing switchboards.



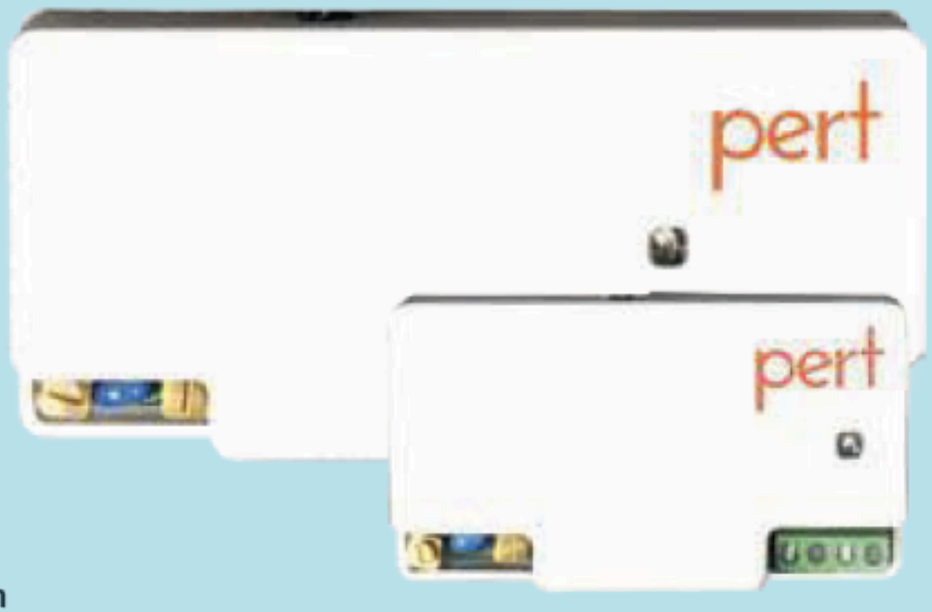
*Devices and appliances that can be controlled by pert

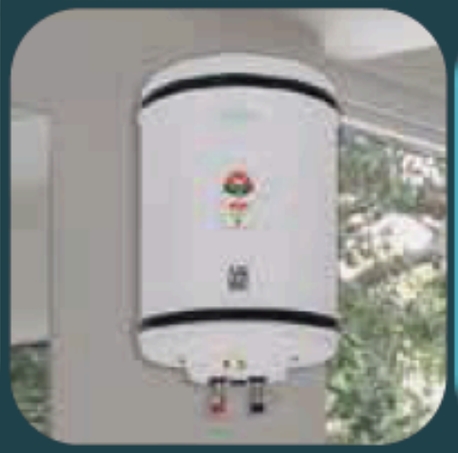
Smart Switches - 8 Node & 4 Node

Smart switch is a Wi-Fi enabled smart device, which can easily be installed into your existing 4-8 module switchboard without any re-wiring. Each Switch can also be configured to be used as a dimmer, so you can set up the perfect ambiance in your home and save energy at the same time. Pert devices are easy to remove as they are to install.

Features

- **Fits inside your existing switchboard.**
- **Worry less and smile more with savings on your energy bills.**
- **Say yes to a smoother life by setting schedules for any device.**
- **Control through your smart phone from another room or country.**





Smart Plug

Smart Plug is Wi-fi enabled 16Amps plug which directly connects with your smart-phone, eliminating the need of a controller or hub. Control your appliances like air-conditioner / geyser from your smart-phone. It is easy to setup and easy to use. Locally, or from the other side of the world through internet.

Features

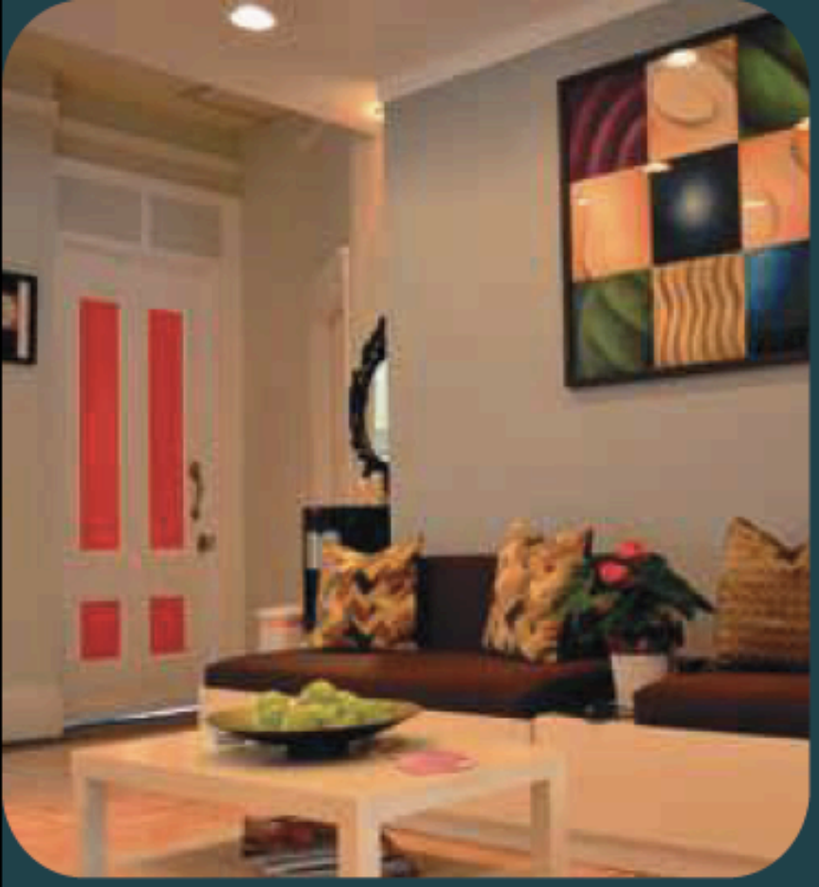
- **Turn appliances on and off from the office, coffee shop, or a far-away island.**
- **Cut costs by learning how much energy your appliances is consuming.**
- **Schedule your geysers and Air-conditioners.**
- **No monthly charges to function regularly in your smart home.**

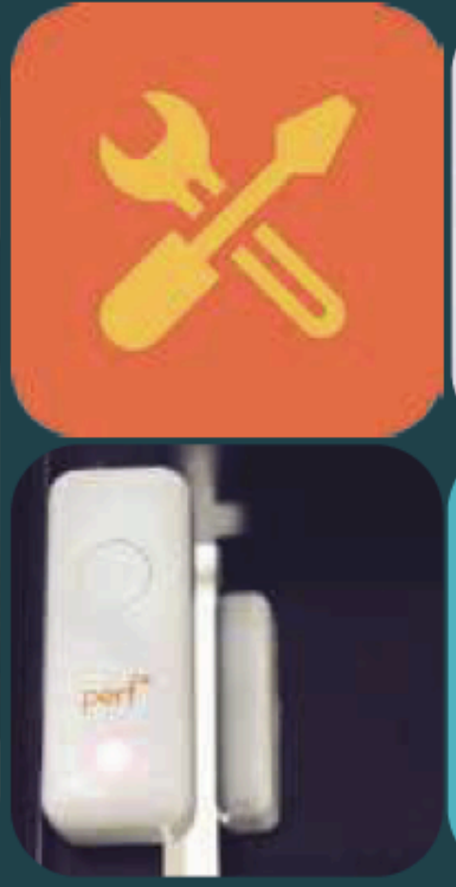
Multi Sensor

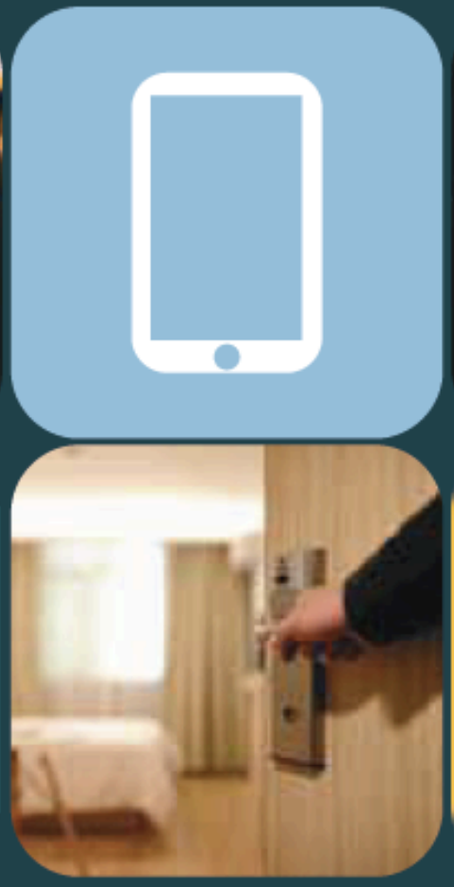
Pert Multi Sensor is equipped with IR Transmitter, IR Receiver, Temperature Sensor, Luminosity Sensor. With Pert Multi Sensor you can control your existing appliance like TV, Airconditioner, Music System. With the help of on-board sensors & rules your Pert Multi Sensor helps you dynamically control your appliances.

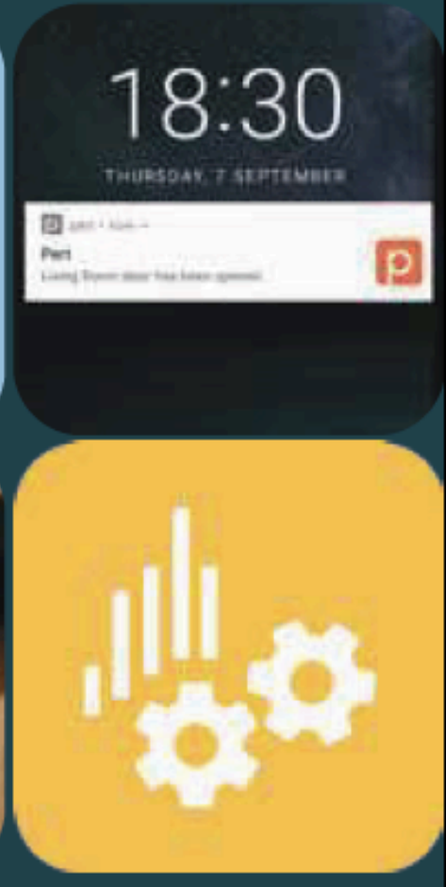
Features

- **IR Blaster, Temperature Sensor, RF receiver & Luminosity Sensor.**
- **Smart Universal Remote Control**
- **Built with Infrared Transmitting Material**
- **Stay safe and protected by receiving immediate notifications**







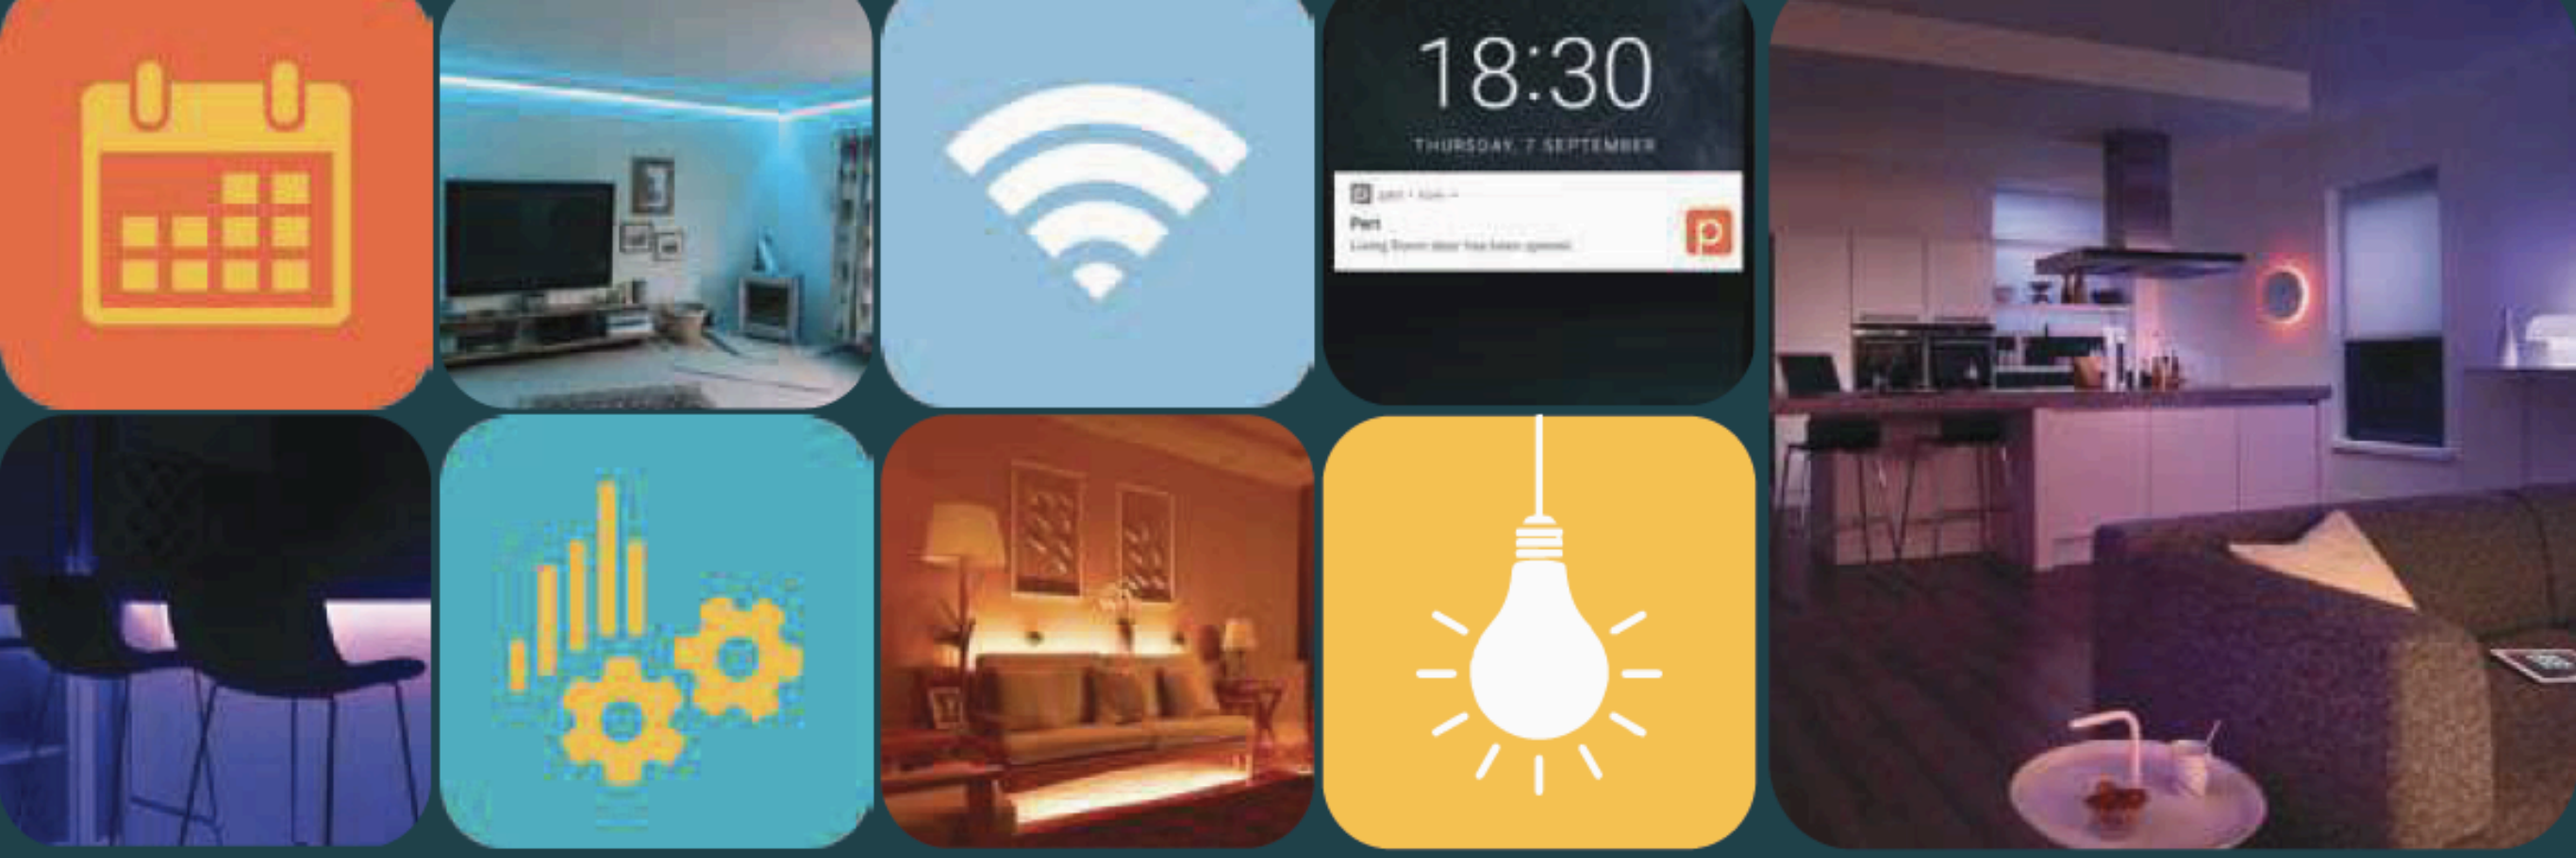


Door & Motion Sensors

The Pert Door & Motion Sensor are battery based sensors that works on RF Technology. They send notifications to your smartphone if your Door or Motion Sensor detects door activity or motion. It also allows you to automate devices connected with other Pert Products and triggers the automation when your sensors sense any activity. Multi-sensor is required for the door sensor.

Features

- **Streamlined device aesthetic design allows it to be placed on any door.**
- **Allows you to automate lights & appliances on door activity or motion detection.**
- **Acts as a guardian by sending real time notifications to your phone.**
- **Security feature – Away From Home that enables extra security.**

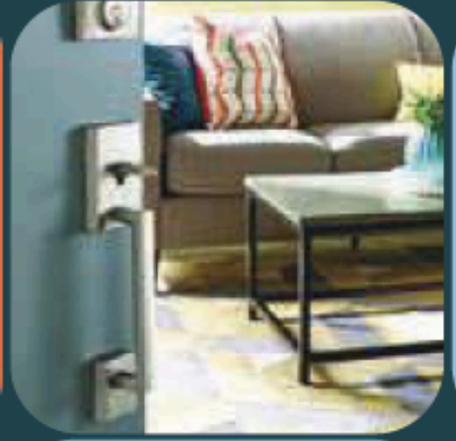


RGB Lighting

With Pert RGB Led strip, you can easily create a unique atmosphere for your living spaces. Customized control of our LED lighting rope allows you to color your spaces with light like no other lighting option can. Create romance, relaxation, or a party ambiance with the simple push of a button. Plug and play product, just remove the back adhesive tape, and paste it to wherever you like

Features

- **16 million colours to choose from & adjustable color temperature with dimmable light.**
- **Easy to mount to your walls, under your bed or cabinets, and pretty much anywhere you'd like.**
- **Control your room's ambient mood with pert app on your smart phone.**
- **The lightstrip can be intergraded with Pert eco-system , and co-work with other devices**

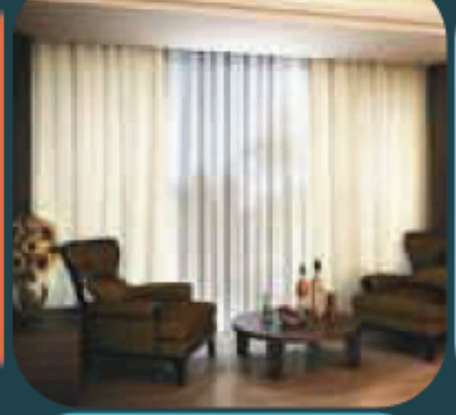


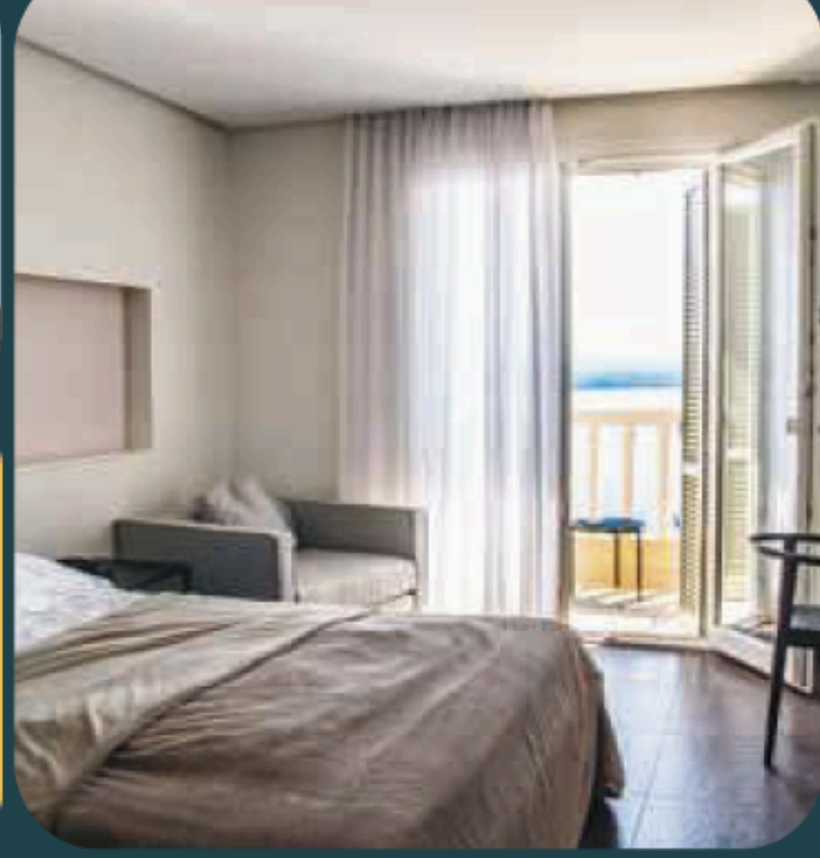
Smart Door Lock

The Pert Smart lock makes daily life easier and more convenient. Share access with trusted friends and family with just a few taps – no more keeping track of spare keys. Pert Smart Lock allows your smartphone to lock/unlock your door from anywhere by creating a secure connection between your Pert Smart Lock and the Wi-Fi network in your home.

Features

- **Give keyless entry to family, friends, housekeepers and others without worrying about keys.**
- **Control and monitor your door from anywhere.**
- **Fits seamlessly into your existing door. Installs in minutes on the inside of your door.**
- **Works in sync with other Pert Products**





Smart Curtain

You can open and close your curtains directly from the Pert App from anywhere in the world. You can set how far curtains should be opened. Pert can automatically close your curtains when everyone leaves the house until someone comes home. This way you curtains help keep your house cool during the summer and preserve heat inside during cold winter months.

Features

- **Control your curtains from the comfort of your bed**
- **You can also set timers to open and close them at a fixed time**
- **Automatically open and close your curtains when the sun rises and sets**
- **Helps you save energy bills**
