NANOLEAF LIGHT PANELS | SMARTER KIT

ILLUMINATE YOUR LIFE, YOUR WAY.

Introducing the Nanoleaf, an all-new smart lighting product purposefully designed to help you light up your life - your way. The Nanoleaf modular light panels can bathe you in as many colours asthere are people in, say Mumbai, at least figuratively.

They can also recreate the perfect white light for your needs - sunrise, rainy day, brilliant daylight or anything in between. It's just the apt lighting product for those who love design; for those who want to improve their quality of life; and also for those who want to add some fun and excitement to their living spaces.

Product Features

❖ Control using voice (iOS / Siri) App, or the included physical controller

❖ Each smarter kit is expandable up to 30 panels

❖ Select your own colour palettes and scenes inside the Nanoleaf Smarter Series App

❖ Schedule custom alarm and time triggers to fully automate your lighting

NANOLEAF LIGHT PANELS | RHYTHM EDITION

VISUALIZE YOUR MUSIC. ANY SHAPE. ANY COLOR. ANY BEAT.

Advanced technology that should have filled your garage a generation ago, Nanoleaf Rhythm is an add-on module that we are now introducing to the Indian customer. A Nano Leaf Light Panel can upgrade itself into a real-time music visualizer.

The Rhythm makes it possible to see sound, visually re-mastering and recreating your music into animated displays of colour and light. With gorgeous colour displays produced by your personalised soundtrack, plug the Rhythm module into any light panel and you're good to go! Reacts to music of all genres in real time. Immerse yourself in your own music symphony of light with this add-on light panel.

Product Features

◈ It is stuffed into a three by two inch by half inch jack in-the-box

◈ Works with iOS8 or later (Home Kit), Android 5.01

◈ Is also compatible with Apple Home App, Google Assistant, Amazon Alexa, or IFTTT

◈ The upgrade module requires a Nanoleaf Light Panels Smarter Kit to function

How the Light Panels Work

Illuminate your life, your way.

Piece the triangular panels together into whatever shape your heart desires. Easily mounted onto any flat surface using mounting tape.

Fully customize your lighting inside the App, create scenes, set schedules, or download/share your scenes with the user community.

Activate scenes using your voice via Siri, Amazon Alexa, or Google Assistant. Or use the toggle button on the physical controller.controller.
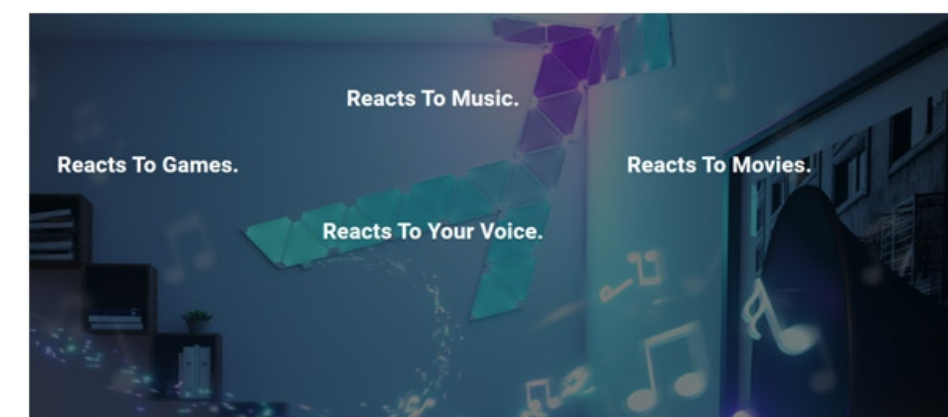

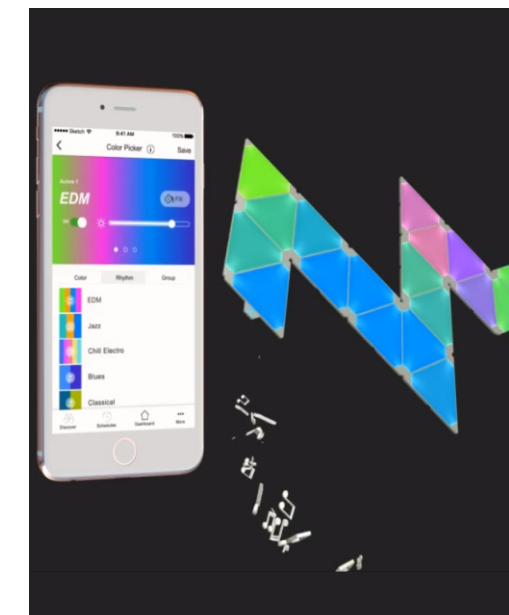

How the Rhythm Works

It listens. It thinks. It turns music into light.

Advanced technology that would have filled your garage a generation ago, stuffed into a three inch by two inch by half inch jack-in-the-box of pure joy. This is technological progress at its finest.

Plug the Rhythm module into any Light Panel and you're good to go! Reacts to music of all genres in real time. Immerse yourself in a symphony of light with this great Light Panels add-on.

Activate scenes using your voice via Siri, Amazon Alexa, or Google Assistant. Or use the toggle button on the physical controller.

The more the merrier! Here are just a few examples of what you can create with more light panels:

NANOLEAF EXPANSION PACK

MORE PANELS, MORE POSSIBILITIES

You have great taste. You're brilliantly creative. Your creation needs to be a heart-stopping masterpiece of colour and light that your home deserves. But you only have nine light panels and your inner artist is screaming for more. Don't worry, we've got your back.

Each Expansion Pack includes three panels and everything you need to add them to your existing light panels. However the Expansion Pack would require a Nanoleaf Light Panels Smarter Kit to function. Just let your imagination run wild with these panels.
Product Features
- Three RGBW Smart LED Panels
- Three Panel Connectors
- Three Mounting Stencils
- Twelve Mounting Strips

NANOLEAF RHYTHM ACCESSORY

## IT'S MUSIC FOR YOUR EYES

The Smarter Kit includes everything you need to get started with the Rhythm Upgrade module. Watch your Nanoleaf Light Panels dance to music with this sleek Rhythm module!

No wires, simply plug the module into any Nanoleaf light panel. Add up to 30 panels to this Wi-Fi smart lighting product. In addition to downloading and customising Rhythm Scenes within the app, you can also toggle through saved Rhythm Scenes via its built-in button. Operate with the free Nanoleaf Smarter Series App or the Home App in iOS10+. And if you don't want to use your phone as a light switch, you can access basic functions from the controller buttons or with Siri, Google Home / Assistant or Amazon Alexa.

Product Features
- ❖ iOS8 or later (Home Kit)
- ❖ Android 5 or later and Google Assistant
- ❖ Apple Home App, Amazon Alexa, and IFTTT.
- ❖ Integrated audio sensor syncs music in real time

SPECIFICATIONS

- Measurements: 80mm X 35mm x 9mm
- Optimal Range: 1.5m – 3m / 5ft – 10ft at a reasonable volume (~50%)
- Precision Mode: Connect your home stereo via the 3.5mm aux port

How It Works

It listens. It thinks. It turns music into light.

Advanced technology that would have filled your garage a generation ago, stuffed into a three inch by two inch by half inch jack-in-the-box of pure joy. This is technological progress at its finest.

Immerse Yourself in a Symphony of Lights

Transform music into light with the Rhythm add-on module for your Nanoleaf Aurora. Plug it in, turn it on, and embark on a sensory adventure personalized just for you.

This is truly the people's product. From its inception, the Aurora Rhythm's design was guided by feedback from hundreds of Aurora owners and beta testers over the course of an entire year. The Rhythm was designed to be plug and play—connect it to any of your Aurora's panels and tap the center button to get started.

NANOLEAF REMOTE

SMARTER AT EVERY TURN

The Nanoleaf Remote is a sleek dodecahedron inspired Bluetooth Home Kit remote. Each of the Remote's 12 sides can beprogrammed with commandsin the Nanoleaf App or the Apple Home App.Rotate to a side and activate the command, every time,it will glow ina different colour.
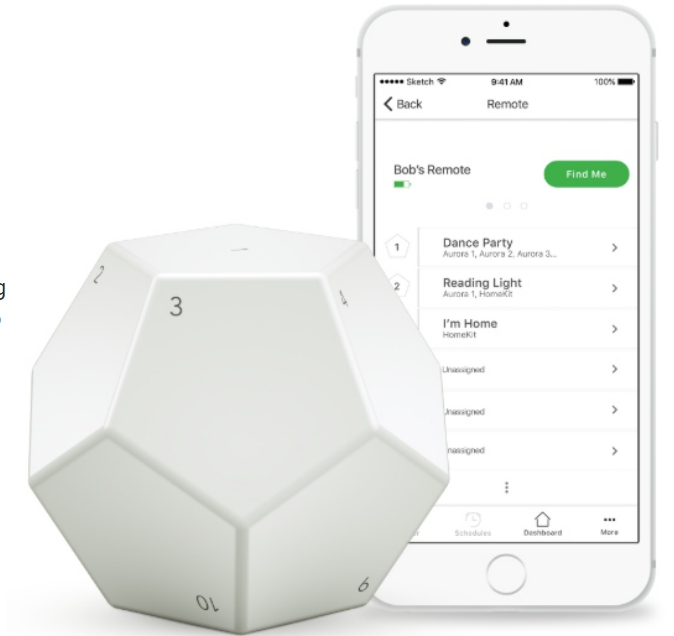

On iOS, the Nanoleaf Remote requires iOS8+ and a Home Hub (Apple TV, iPad, or Home Pod). You may have to use the rotate to brighten or dim the light effects.On Android devices, the remote requires Android 5.01+ and a Nanoleaf Rhythm. You can program what you want,your remote to do within the Nanoleaf app.

Product Features

❖ Customise your Nanoleaf remote with any Light Panels or Home Kit within the Nanoleaf app.

❖ Switch to a Rhythm Scene when there's music and activate scenes

❖ The remote comes with pre-programmed scenes for each side.

❖ Control the brightness by rotating the remote clockwise and anti-clockwise.

A Different Kind of Control

Rotate a side to the top position to activate the programmed scene. With each rotation the Remote will glow a different color to provide user feedback. Do anything from turning off your Nanoleaf Light Panels, to switching to a Rhythm scene for a party, and even activating scenes for controlling 3rd party HomeKit products. The possibilities are endless.

App Store | GET IT ON Google Play

Effortless Control For Your Smarter Home

The Nanoleaf Remote is a sleek dodecahedron inspired Bluetooth HomeKit remote designed to enhance user experience and make controlling the Nanoleaf Light Panels and other HomeKit products even more convenient.

How the Remote Works.

Each of the Remote's 12 sides can be programmed to trigger different commands. You can fully customize your Remote with any Light Panels or HomeKit scenes within the Nanoleaf app. The Remote comes with pre-programmed scenes for each side so that it's even ready to go out of the box.

Do anything from turning off your Nanoleaf Light Panels, to switching to a Rhythm scene for a party, and even activating HomeKit scenes to also control your other HomeKit products. The possibilities are endless.

• Rotate a side to the top position to activate a scene.

• Remote glows a different color when rotated to a different side.

• Powered by 2x AA Batteries.

• Batteries last 1-2 years depending on use.

• Connects via Bluetooth.

FLEX CONNECTORS & MOUNTING KITS FOR LIGHT PANELS

EXTEND THE POSSIBILITIES OF YOUR NANOLEAF LIGHT PANELS EVEN FURTHER!

Do you want to create a 3D light and shadow effect on a corner, ceiling or a wall of your office? Do you want to have a dazzling installation set-up in a corner?

The Nanoleaf Flex Linker is the answer to your needs. It's a flexible, bendable solution, a bit longer than the regular linkers. The Mounting Kit is designed to secure the panels to the surfaces where a tape doesn't work. For a more secure and professional installation use screws. Bend the Nanoleaf Light Panels around the corners and mount them to angled surfaces to create something very visually radical.

Product Features

◆ Each linker bends up to 180 degrees
◆ Substitute it for rigid, non-flexible linkers
◆ Perfect for mounting your light panels to uneven or porous surfaces
◆ Perfect for surfaces where foam tape can't be used.
NANOLEAF
Mounting Kit

X12   X4

For an even more secure installation using screws.

Need a professional installation in an office or business space? Want to mount your panels onto the ceiling? The Aurora Mounting Kit was designed to secure the panels to surfaces where mounting tape just isnt enough.

Whats in the box?

For those around the corner or ceiling to wall setups

Want to continue your Aurora installation around a corner, from wall to the ceiling, create a 3D mountain on your wall, or just want gaps between your panels? The Aurora Flex Linker is just the solution youve been waiting for. Flexible, bendable, and slightly longer than the regular linkers so you can be even more creative with your design!

NANOLEAF CANVAS

GEN-NEX NANOLEAF

This is our flagship product. The Nanoleaf Canvas is Nanoleaf's rising star of 2019 – no hyperbole. A completely new and improved version of its predecessor, the Nanoleaf Light Panels, comes with a host of new and attractive features, compatible with the latest suit of technologies.

In addition, these light squares come with a slew of classic features such as modularity, customisation and scheduling within the app. You are able to choose from 16 million colours, which include a complete range of warm to cool white shades. Last but not the least, the Nanoleaf Canvas comes with touch and motion sensitivity.

Product Features

❖ A full range of customisable colours

❖ Built-in Rhythm technology

❖ Touch and motion sensitivity

❖ Ability to support up to 1000 panels per controller system

**A modular masterpiece of light and colour for any home**

Lamps are lame. If you hunger to turn your home lighting into a canvas for personal expression, we've got a light panel for that. Introducing the Nanoleaf Canvas, the new and improved prodigy child of the award-winning Nanoleaf Light Panels. Building on our core light panel technology, the edge-lit Canvas is designed to cover the walls and ceiling of an entire room, if you so choose. In addition, the Nanoleaf Canvas also come with unique new features like built-in Rhythm technology, touch and motion sensitivity, and the ability to support up to 1000 panels per controller system. Smart lighting is about to get a whole lot smarter.

If you thought our original light panels were cool, these will make your mind gooey.

● White-tunable+colour-changing   ● Touch, app and voice control

● Schedules+light alarms   ● Music visualisation
